Public Library Data Service Statistical Report 2007 - Database Subscription

New this year!

In addition to the print version, PLA is now offering access to the PLDS Online Database. The Online Database features a dynamic, Web-based format. Users can:

• View 2007 PLDS Tables - including summary and comparison tables, with searchable data exportable into Excel/CSV file formats, and linked data from other report sections.

• Access 2006 and 2007 summary tables in interactive charts control the type of chart (line, bar, area, pie) the information is displayed in, and the types of calculations used. Charts will include breakdowns by legal service area (as in the print version), as well as breakdowns by state and the legal services within each state.

• Create customized PLDS datasets with user-defined data, calculations, charts, and other analysis that can be saved and exported into Excel/CSV file formats.

The PLDS Online Database, *a project of the Public Library Association, is designed to meet the needs of public library administrators and others for timely and effective library-specific data that illuminates and supports a wide variety of management decisions.*

A subscription to the PLDS Database provides unlimited Web access to data and reports from the 2006 and 2007 Public Library Data Service Survey for one year (12 months).

I wish to order _____ **one year (12 months)**
quantity

subscription(s) @ $250 each _____
